BRAND VAN EGMOND is a Dutch design brand and an international trendsetter in exclusive handcrafted lighting.

The brand and studio were founded in 1989 by William Brand and Annet van Egmond, two pioneer artists with the sole intension to create art without restraints. William Brand (1963) and Annet van Egmond (1964) graduated at the Utrecht School of the Arts in the Netherlands, where he was trained as an architect and she as a sculptor. They have been working as independent product designers for over 24 years. Their first lighting sculpture became an instant icon.

Their passion for lighting sculptures has resulted in an impressive collection, with yearly additions of new designs. As all their lights are handmade, they are frequently asked to customise for specific clients and projects across the world. From their base in Naarden, The Netherlands they operate in over 60 countries, with a clientele ranging from Royals to Rappers. Several leading luxury brands like Chopard, Neuhaus and Louis Vuitton have made the lighting sculptures of Brand van Egmond part of their retail identity.

Both William and Annet continue to welcome requests from architects, designers and clients who seek their help in order to translate specific wishes into beautiful handcrafted lighting sculptures.

Through the selected images in this book of projects around the world we hope to inspire you, just as we have been inspired by anecdotes and specific requests from you.
Some of the leading brands of the world have applied BRAND VAN EGMOND lighting sculptures to enhance the retail identity, and therefore shopping experience, of their boutiques.

FLOATING CANDLES collection,
DELPHINIUM collection
NIGHT WATCH collection
Exhibition curated by Nicole Uniquole.
HOLLYWOOD collection
Handpicked by Christian Lacroix.
From sketch to production

Our design studio welcomes requests for new projects on a daily basis. We listen while being served information, beautiful anecdotes and delicious details from those that require assistance in their search for their perfect lighting object. We in return get inspired, and start creating. After a final approval our ateliers perform the required handwork in order to transform the final sketches into handcrafted reality: another lighting sculpture is born.
Customised objects

Every BRAND VAN EGMOND lighting sculpture is hand-made and unique. Besides our regular collection we frequently produce Haute Couture objects for clients with specific requests. In association with architects and private clients around the globe we use our knowledge and experience to translate these wishes into handcrafted reality.

Chopard Boutique, Kuwait City, KW
Monostore, Kampen, NL
45 Parklane Hotel, London, UK
