Welcome...

William Brand (1963) - an award-winning architect and sculptor - is widely recognized for his imaginative and daring sculptural lighting.

In 1989, he founded his own atelier Brand van Egmond to create without restraint.
His lighting sculptures, often perceived as art pieces, grace the finest residences, exclusive boutiques, stunning hotels and leading art exhibitions.

We welcome everybody who wants to see our designs, or would like personal advice from William Brand and his team, to our office and atelier in Naarden, The Netherlands.

BRAND VAN EGMOND

“Every design of new collections follows the same sequence. After the first sketches,
I quickly move towards the atelier and start working with new materials and shapes by myself.
Of every collection I can still feel every curve and twist literally in my hands.”

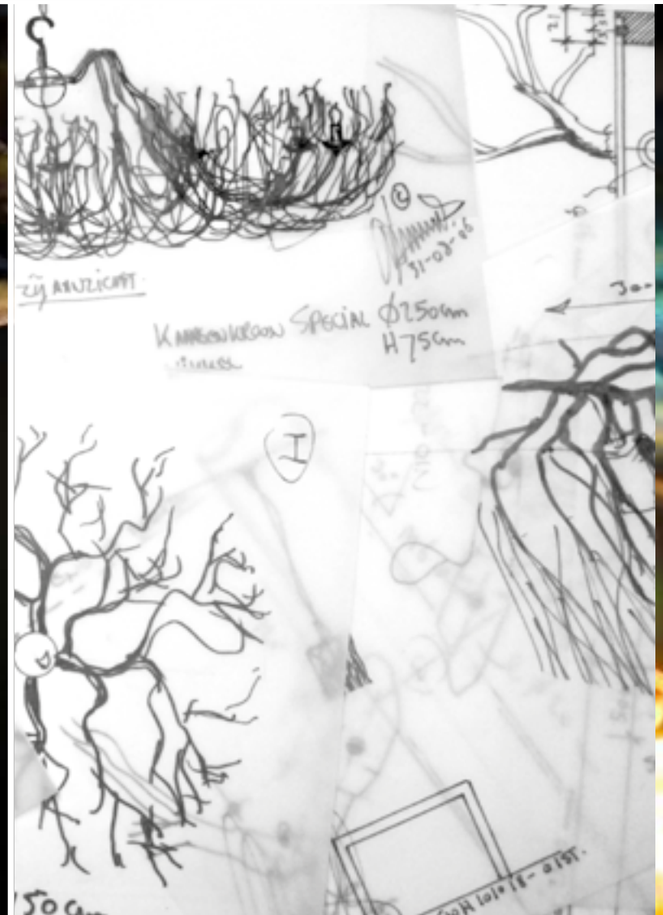

What begins as a simple sketch with William’s pen, results in a sculptural lighting object with character, crafted exclusively by hand and with love by skilled artisans, under the direct supervision of William. All creations differ from each other and have little marks of handcrafting, like the colorful patina, grinding structure, little glass characteristics, which give each piece its individual charm.

Linea

Design by William Brand

Truthful and pure, the Linea makes a precise yet playful statement through thin lines of beauty.

Floating through the sky, as if a magical formula brought to a standstill the whirlwind of steel, fire and light.
Frozen, both in time as well as in space.

Just like airplanes can leave a composition of line-shaped clouds -the passing proof of human movement in the air- the Linea is like a drawing of illuminating lines in the sky. Temporarily mid-air, permanently illuminating.

Creating a beautiful light is like good architecture: a matter of proportions.

Galaxy

Design by William Brand

The galaxy is a constellation of energy, movement and form. Propelling away from the centre of gravity towards clouds of stardust and outer planets.

Avant-Garde by nature, the shapes and forms of the Galaxy relate to each other as the planets towards the sun. The artist and the dreamer both know, space is where an image grows.

The new collection Galaxy fell into the 21st century without a trace of regret from a different era, lightyears away. A lasting design has to have roots.

* Due to the unique process of creating the finishes Brass Burnished, Brass Aged, Nickel Aged and Copper Burnished, lights that will be combined in the same space should be ordered at the same time, in order to prevent lights from looking slightly different from each other. Colours and finishes may appear slightly different by viewing in print or on screens.

Orpheus

Design by William Brand

One of the most legendary poets and singers in Greek mythology is Orpheus. He sang so beautifully that he touched everyone and all around him. The King and Queen were moved to tears, but also the birds, trees and even the stones were hypnotized by his magical voice.

We have found several objects of desire amidst the nymphs and trees, and formed them into new lights. A precious stone, a golden mineral and a delicate porcelain rose: all captured in a protective embrace of casted bronze.

Orpheus-Malachite
The soft velvet look of raw malachite and its vibrant green colour have a mesmerizing effect. Coming closer, you will see a movement and a flow of energy in its lines and circles.

Orpheus-Pyrite
An astonishing mineral, seemingly made by human hands but in fact found in nature, is called Pyrite. Given its strong resemblance to gold, it was nicknamed by gold diggers as ‘fool’s gold’. The surfaces reflect the light in a fabulous way; creating a splendour of golden light.

Orpheus-Amethyst
This precious stone, embraced through the millennia by ancient Greeks , Russian Tsars and English bishops is seen as a protector against dark magic, and a symbol for those in love.

Due to the scarcity of precious stones and minerals, we need to check availability before an order can be confirmed.

All stones and minerals are selected with the utmost care by Brand van Egmond. They arrive in pure, untouched and unpolished form in our hands, just as Mother Earth offers them. All precious stones differ from each other in size, shape, colour and appearance. These are hallmarks of authenticity and should not be considered as shortcomings but embraced as the beauty of natural imperfection.

Louise

Design by William Brand

With almost carefree delight, William designed this Louise collection: A simple frame, decorated in a pleasing rhythm with glass lanterns.

A hint of chaos, never far away in designs from William Brand, is present: the different colours and positions of the glass lanterns have a joyful effect.

Ersa

Design by William Brand

A fresh breath of air whispers through the handcrafted branches of the Ersa. Capturing that brief moment of morning glory, when small drops of dew in nature can be found before disappearing in the air of a new born day.

Ersa derives her name from the ancient Greek's goddess of morning dew. Small dewdrops act as nature's perfume.

Shiro

Design by William Brand

By means of the deduction of every unnecessary layer of decoration, a calmness of mind appears allowing for a collection to be born. The Shiro – Japanese for castle - is the result of a journey of deconstruction.

Stripped of all but the bare yet beautiful essentials, this new collection permits for a well composed equilibrium.

It allows serenity to triumph over chaos.

Eve

Design by William Brand

To be human, is to be aware that there are forces greater than ourselves. From the majestic power of nature, until the longings deep within our soul.

With an elegant twist, although with an undeniable force behind it, the Eve is crafted. The fruit she carries is tempting.... will the apple be eaten, or not?

...ique process of creating the finishes Brass Burnished, Brass Aged, Nickel Aged and Copper Burnished, lights that will be combined in the same space should be ...me time, in order to prevent lights from looking slightly different from each other. Colours and finishes may appear slightly different by viewing in print or on screens.

Fractal

Design by William Brand

Our brains are set up to bring order in chaos, find logic in confusion and recognise patterns in the opaque. However, what to make of the puzzle of the exact yet endless repetition found at times around us?
Fractal is a natural phenomenon as well as a mathematical set that exhibits a repeating pattern.

The organised chaos of the reflecting elements of the Fractal dispenses the light beautifully in all directions.
The finishes are stainless steel, brass grinded, black matt and white matt.

Flintstone

Design by William Brand

Retracing our steps through the millennia to the beginning of times, we find ourselves back at the fireplace in the prehistoric cave. Here we realise that the most primal of our needs are safety and warmth. The tree branch and the stone, found at the end of this journey back in time, are combined in this lighting object. Every stone is unique, and captures the emotion of eternity as well as being used as a functional counterweight.

The branch of the Flintstone is flexible, allowing the light to be adjusted and easily moved through space.
The length of the branch can be ordered in different sizes.

* Due to the unique process of creating the finishes Brass Burnished, Brass Aged, Nickel Aged and Copper Burnished, lights that will be combined in the same space should be ordered at the same time, in order to prevent lights from looking slightly different from each other. Kelp

Design by William Brand

Frivolous and light-hearted, spirited and energetic; the arched and curved Kelp dances through the air. The light sparkles warmly as in a crackling open fire, bringing an exhilarating sense to any space.

Imagine yourself submerged in a vast tropical ocean, at awe with the unexpected colours and forms in this to you previously unknown world.
Dive one level deeper, and be amazed by the surprising beauty of organisms floating by.

As nature comes in many forms, the Kelp can be ordered in different shapes and sizes. The possibilities are endless. Use the Kelp elements in any variety you like, as a single object or a dancing composition by entwining various objects together.

Sultans of Swing

Design by William Brand

Beauty enables us to find and lose ourselves at the same time. Only when paying careful attention, we sometimes hear the quiet whispers of history from beyond the curtain of time. Embracing both times gone by as well as the present, Sultans of Swing captures Imperial elegance and the sheer pleasure of blowing new life into long-standing shapes and forms.

Due to the unique process of creating the finishes Brass Burnished, Brass Aged, Nickel Aged and Copper Burnished, lights that will be combined in the same space should be ordered at the same time, in order to prevent lights from looking slightly different from each other. Flower Power

Design by William Brand

Using the latest techniques to cut flowery sensual shapes out of steel plates, Flower Power is a wonderful rendez-vous between handmade and high-tech. All this is combined with especially designed glass drops, that evoke the idea of icicles.

* Due to the unique process of creating the finishes Brass Burnished, Brass Aged, Nickel Aged and Copper Burnished, lights that will be combined in the same space should be ordered at the same time, in order to prevent lights from looking slightly different from each other. Colours and finishes may appear slightly different by viewing in print or on screens.

Icy Lady

Design by William Brand

When creating we close our eyes, in order to see. Combining the best materials and techniques to create objects that can be admired both from afar and up close. An elegant and ladylike posture combined with sparkling crystals results in the collection Icy Lady.

Crystal Waters

Design by William Brand

Allowing the fine wiry parts to find their own way, like water leaving a riverbed, a wide range of shapes and dimensions flow smoothly from the collection of Crystal Waters. Eventually, all things merge into one, and a river runs through it...

Delphinium

Design by William Brand

It is a small step from the purity of nature to the pleasures of life, a step taken at the time of the introduction of Delphinium.

The structure of frivolous iron garlands carrying glass elements evokes an almost secret longing for times bygone.

A new stream of dancing designs comes to the fore, all with a playful hint of hedonism.

* Due to the unique process of creating the finishes Brass Burnished, Brass Aged, Nickel Aged and Copper Burn… ordered at the same time, in order to prevent lights from looking slightly different from each other. Colours and fini… …the same space should be … viewing in print or on screens.

Hollywood

Design by William Brand

Travelling through Africa with his family, William was touched by the slenderness and pure beauty of the branches and trees scattered across the land. Just as nature comes in all forms and shapes the Hollywood line is equally diverse, including round, conical and square shapes.

* Due to the unique process of creating the finishes Brass Burnished, Brass Aged, Nickel Aged and Copper Burnished, lights that will be combined in the same space should be ordered at the same time, in order to prevent lights from looking slightly different from each other. William Brand

designer / owner

William was trained as an artist and an architect. He graduated at the Utrecht School of Arts.

As an award-winning furniture designer he for many years designed buildings and interiors for fashion brands, including the headquarters of BRAND VAN EGMOND. His interior designs are always minimalist, in contrast to his lighting designs which have a powerful sculptural presence. He considers his lighting objects to be “the cherry on the cake”. His way of working is quite specific. Immediately after defining the concept he starts working in the workshop like a sculptor; experimenting and crafting while having the object grow in his hands, often with unexpected results. Therefore the journey is just as exciting and important as the destination.

Certificate

Each BRAND VAN EGMOND lighting sculpture is issued with a certificate of authenticity and registered with a unique number. This guarantees that you are in possession of an original BRAND VAN EGMOND object.

We advise you to keep this certificate together with your receipt of purchase in a safe place.

Due to the scarcity of precious stones and minerals, we need to check availability before an order can be confirmed. All stones and minerals are selected with the utmost care by Brand van Egmond. They arrive in pure, untouched and unpolished form in our hands, just as Mother Earth offers them. All precious stones differ from each other in size, shape, colour and appearance. These are hallmarks of authenticity and should not be considered as shortcomings but embraced as the beauty of natural imperfection.
